**rent.com.au free for Rockend REST clients to list rental properties, find out how**

Tuesday, 14 June 2011 4:11:06 PM (AUS Eastern Standard Time, UTC+10:00)

Rockend is pleased to advise that it is now free to load all your residential and holiday rental listings to rent.com.au.

REST Professional supports rental property advertising uploads to rent.com.au through the REST Web Advertising Module, with no additional charges involved.

Your REST Professional Web Advertising Module allows you to automatically add and remove your rental advertisement on rent.com.au, as well as other websites, saving you valuable time whilst improving your advertising reach.

It only takes a few minutes to register your office for the free offer from rent.com.au. Simply register at [www.rent.com.au/agents](http://www.rent.com.au/agents). Join before the 30th June and your office will also go into the draw to win a \$5,000 Holiday Voucher from Flight Centre.

After registering remember to select Rockend REST on the link request form.

You will then be emailed the setup instructions to link Rockend REST to rent.com.au for your property uploads.

If you aren't currently utilising the Web Advertising Module for your uploads this is a great reason to start.

To get more info on rent.com.au and the free offer visit the Agents & Managers page on the rent.com.au website, email [agents@rent.com.au](mailto:agents@rent.com.au), or phone  **1300 736 810** .
